

Five Sparrows Web Site Hosting

Five Sparrows' web site hosting includes email, access to your web statistics, and a "CPanel" interface that gives you control of your own hosting account.

Web Site Hosting

Our web site hosting is a low-cost, feature-rich service designed to fit the needs of any small business. Hosting includes features like free email, web statistics, e-commerce shopping cart software, and a 24/7 control panel interface (CPanel) that gives you control of your own hosting account.

Five Sparrows has partnered with a large, reliable web hosting/server company that guarantees 99.9% up-time and has hundreds of large-capacity, technologically advanced web servers and a full-time staff to ensure reliability and dependability. Hosting features include:

Email:

- POP3 Accounts
